Little Goose Navigation Lock closed to Recreational Traffic

Little Goose Lock & Dam located at Snake River mile 70.3, has temporarily closed its navigation lock to recreational traffic. Commercial users are not affected by the lock outage at this time.

Damage to the upstream gate hoisting equipment has made it necessary to restrict use of the gate to extend equipment life until permanent repairs can be made. The navigation lock will remain closed to recreational traffic until repairs can be completed.

A plan to return the lock to full service is being developed. Updates will be sent as soon as they are available.

Your cooperation in this matter is much appreciated. For additional information, please call at (509)527-7115 or (509)527-7114.

Public Notices and other navigation lock information are available on the Internet at:

<http://www.nww.usace.army.mil/html/offices/op/t/navdata/default.html> .
